

## Day 2 Panel : AI for Government and Public Services

December 22nd, 14h00 - 16h00 (GMT+1)

AI can help governments design better policies, improve communication and engagement with citizens and populations, and upgrade the speed, efficiency and quality of public services.

This panel aims to shed light on the benefits of AI for Governments' Public Policies and Services and discuss an insight on the challenges, opportunities and best practices of integrating AI in this space.
