MoroccoAI

Annual Conference - 2021

Data Challenge

MoroccoAI Annual Conference 2021 is organizing a **data challenge** to offer an opportunity to anyone interested in machine learning to learn and test ML skills on a real-case problem.

This data challenge addresses the problem of **Automatic Number Plate Recognition** (ANPR) in Moroccan licensed vehicles. Based on a small training dataset of 450 labeled car images, the participants have to provide models able to accurately recognize the plate numbers of Morocco licensed vehicles.

Important dates

- **December 9, 2021**   Start Date

- **December 15, 2021**   Team Merger Deadline

- **December 20, 2021**   Final Submission Deadline
